- ▶ UL Approved as battery boxes and as enclosures for B9512G/B8512G/D9412GV4/D8412GV4/D7212GV4 control panels
- ▶ Suitable for residential/commercial fire or burglary applications
- ▶ Holds up to four auxiliary batteries

The BATB Family of battery box\enclosures is red for use in fire alarm systems. The BATB-40 provides a single level (two battery capacity) of battery storage. The optional BATB-SHELF battery shelf increases the battery capacity to four batteries. The BATB-80 comes with the BATB-SHELF mounted and holds up to four batteries.

## **i** Informação

The actual number of batteries the battery box can hold depends on the size of the batteries. For battery box dimensions, see Technical Specifications. Mounting requirements depend on the total weight of the battery box/enclosure. For mounting information, see the *BATB-40/BATB-80 Installation manual*.

They are UL listed for use as enclosures for B9512G/B8512G/D9412GV4/ D7412GV4/ D7212GV4 control panels.

## **i** Informação

When used as a control panel enclosure, the battery shelf must be removed.
