

DCN-FVCRD Flush Voting ID Card Panel

www.boschsecurity.com

BOSCH
Invented for life

- ▶ Stylish and modern design (IF award)
- ▶ Identification with ID card
- ▶ External Present contact
- ▶ LED vote confirmation indicators
- ▶ LED unit active indicator

The Flush Voting ID Card Panel has the same functionality as the Flush Voting Panel (DCN-FV) with the addition of an ID card reader. The ID card reader enables identification of delegates to the DCN Next Generation system, as well as providing a convenient facility that ensures only authorized delegates can participate in voting sessions or general conference proceedings such as microphone use. The unit is connected to the Dual Delegate Interface DCN-DDI.

- Rating scale: --, -, 0, +, ++ (used for audience response)
- One blue LED unit active indicator to show that the system is in normal operation. The yellow LED indicates the validity of the ID card

Interconnections

- 2 RJ11 connectors, one for connection to DCN-DDI Dual Delegate Interface and one for loop through
- Connector for an external present contact (AMP173977-3 socket)

Functions

Controls and Indicators

Front

- Five voting buttons with yellow confirmation indicators to prompt the user to indicate presence, to vote and to confirm registration of what is voted. The buttons and indicators work as follows:
 - Yes (+), no (-) and abstain (x) (used for attendance registration, parliamentary voting and for/against)
 - Numerals 1 to 5 (used for multiple choice, opinion polls and rating)
