

DETECTION YOU CAN DEPEND ON

Wall mount Ceiling mount Outdoor

Motion detectors

Bosch motion detectors offer excellent catch performance and the highest level of immunity from costly false alarms. They raise the bar for reliability and rapid detection, are easy to install and built to last.

Excellent catch performance

Best wall-to-wall coverage pattern

Instant response from the first step

Identifies intruders at any temperature

TriTech

PIR + Microwave Doppler radar
Reliable detection under challenging environmental conditions

Cloak and Camouflage Detection Technology
Maximizes catch performance against intruders who attempt to cover their infrared signal

Wall mount (indoor)
