

Trademarks

OnGuard® is a registered trademark of Lenel Corporation in the United States and/or other countries.

ReadykeyPRO® is a registered trademark of Bosch Security Systems, Inc. in the United States and/or other countries.

1.0 Product Version 2.23

1.1 Fixed Items

- Fixed a problem with the transmission of duplicate alarm events with multiple IP address destinations.
- Fixed the response to SDI polls during the transmission of low baud rate or long messages.
- Fixed extra data byte errors on the SDI and RS-232 connection.
- Fixed checksum error calculations.
- Increased performance when used with BIS, ReadykeyPRO®, or Lenel OnGuard® for dropped connections.

1.2 New Items

- Implemented flow control on the panel bus connection.
- Increased the internal buffer size to handle larger RPS communication packets.

2.0 Product Version 2.22

2.1 Fixed Items

Fixes these issues when connecting automation system software to control panels using the DX4020 or DX4010i:

- Lost alarm events.
- Duplicate alarm events.
- Invalid reporting of system status.
